

Prefesnted by Rob Eastaway (a Mathematician)
& Rebecca MacMillan (a Shakespeare improviser)

For the benefit of TEENAGERS AGED 13 TO 16
(and to the general interest of all SIXTH FORMERS)

A NEW and INSTRUCTIVE TALK that will combine the two
unavoidable topics at school: SHAKESPEARE and MATHS.

Find out how Tudors multiplied, why Shakespeare never ended a line with the word orange, why King Lear was every inch a king, and why early drafts of the plays could possibly have been written with a pencil. With historical asides about astronomy, games, opticks and music thrown in, you might never think about maths or Shakespeare the same way again.

To be held at CRESCENT THEATRE, BIRMINGHAM B16 8AE
on 15th & 16th NOVEMBER 2022 at 10.15 to 12.15 or 1.15 to 3.15 o'clock

Tickets £10+VAT, teachers FREE
